How to Use This Book

LOGG is the working language of the Bixxville network. This book teaches **Plain LOGG** — the everyday register. It is what the OS speaks, what messages are written in, and what you will use every day.

There is a second register, **Formal LOGG**, used for the constitution, published books, and ceremony. You do not need it yet. When you are ready, it is five spelling rules away. The grey column in every word box shows you the formal spelling so you can see the pattern building as you go.

THE GOOD NEWS

There is nothing to conjugate.

Verbs never change shape. Nouns have no gender. There is one word for "the." Almost everything you must learn is on the next page, and the rest is vocabulary.

How each unit works

- **The rule** — in a gold box. One idea per unit.
- **Examples** — the LOGG line, then what each word does, then the meaning.
- **New words** — a boxed list with the part of speech for every word.
- **Practice** — exercises. Answers are at the back.

The parts of speech, in plain names

IN THIS BOOK	TECHNICAL NAME	WHAT IT DOES
Person word	Pronoun	Stands for a person — mi, ju, am
Naming word	Noun	Names a thing — hus, buki, werk
Doing word	Verb	The action — kom, mak, les
Time word	TMA particle	Says when, or whether it is finished — a, ka, sa
Pointing word	Determiner	Points something out — di, dese
Describing word	Adjective	Tells you what kind — klein, gut
Place word	Preposition	Where or when — na, met, van
Joining word	Conjunction	Links two ideas — en, mar, as
Asking word	Interrogative	Asks a question — wat, wapi

UNIT 0

Letters and Sounds

Say what you see. LOGG spelling never lies to you.

THE RULE

Every letter has one sound. Every sound has one letter.

Unlike English, there are no silent letters and no surprises. If you can say the letters, you can read any word in LOGG on sight.

The five vowels

LETTER	SAY IT LIKE	LOGG WORDS
a	the a in <i>father</i>	kan, dat, han, dag
e	the e in <i>bet</i>	wes, ler, werk, sten
i	the i in <i>machine</i>	mi, di, shi, kint
o	the o in <i>go</i>	lo, ko, dor, hogo
u	the u in <i>flute</i>	hus, ju, buki, gut

The consonants that need watching

LETTER	SAY IT LIKE	LOGG WORDS
j	English y — never the j in <i>jam</i>	ju is said "yoo"
g	always hard, the g in <i>go</i>	gras, gut, gruj
w	the w in <i>water</i>	wes, wak, wapi
sh	the sh in <i>ship</i>	shi, shishi
b d f h k l m n p r s t v z — all exactly as in English.		

SAY IT RIGHT

j is the one letter that trips up English readers. **ju** rhymes with "you," because it *is* "you."

The letter **c** does not exist in Plain LOGG. Where the old books wrote *Creol*, LOGG writes **kreol**.

Practice 0.1 • Read these out loud

1. ju · jung · jender
2. hus · buki · gut
3. shi · shishi · sten
4. gras · gruj · gro

UNIT 1

Person Words

One word does three jobs.

THE RULE

Each person word has only one form.

English needs three words for one person — *I, me, my*. LOGG needs one. **mi** is I, and me, and my. There is nothing else to learn.

LOGG	MEANS	ONE OR MANY
mi	I, me, my	one
ju	you, your	one
am	he, she, it, him, her	one
ons	we, us, our	many
jender	you all, your (plural)	many
sender	they, them, their	many

TWO THINGS WORTH NOTICING

am has no gender. He, she, and it are the same word. You never have to guess someone's gender to speak about them.

jender means "you all." English lost this word and has been improvising ever since — y'all, you guys, yinz. LOGG kept it.

Mi kom.

1SG come

I come.

Am se na mi.

3SG say NA 1SG

He said to me. / She said to me.

Jender ka les di buki.

2PL PRF read DET book

You all have read the book.

NEW WORDS · UNIT 1

mi	PERSON WORD	I, me, my	mie
ju	PERSON WORD	you, your	joe
am	PERSON WORD	he, she, it, him, her	hem
ons	PERSON WORD	we, us, our	ons
jender	PERSON WORD	you all	jender
sender	PERSON WORD	they, them, their	sender
kom	DOING WORD	to come	kom
se	DOING WORD	to say	see
les	DOING WORD	to read	lees

Practice 1.1 · Complete the sentence

1. _____ kom. (*I come.*)
2. _____ ka les di buki. (*They have read the book.*)
3. Am se na _____. (*He said to us.*)
4. _____ kom? (*Do you come?*)

Practice 1.2 · Circle the correct word

1. She reads. → **mi** **am** **ons**
2. You all come. → **ju** **jender** **sender**
3. My book. → **mi buki** **am buki** **ons buki**

UNIT 2

Naming Words

And the only word for "the."

THE RULE

There is one word for "the." It is di.

Naming words have no gender. There is no *le* and *la*, no *der*, *die*, *das*. Every naming word in LOGG takes the same **di**.

di hus

di buki

di kint

di werk

For "a" or "one," use **een**. It keeps its double vowel so it does not collide with **en**, which means "and."

een buki en een brif

a book and a letter

a book and a letter

To point at something near you, use **dese** — this, these.

A USEFUL HABIT OF THE LANGUAGE

When you speak in general, drop the pointing word entirely. Proverbs do this: **Pampun no kan pari kalbas** — "A pumpkin cannot give birth to a calabash." No **di**, no **een**. Just the bare naming words.

NEW WORDS · UNIT 2

di	POINTING WORD	the, that, it	die
dese	POINTING WORD	this, these	deese
een	POINTING WORD	a, one	een
hus	NAMING WORD	house	Hoes
buki	NAMING WORD	book	Boeki
brif	NAMING WORD	letter	Brief
kint	NAMING WORD	child	Kint
werk	NAMING WORD	work	Werk
dor	NAMING WORD	door	Deer, Door
dag	NAMING WORD	day	Dag
tal	NAMING WORD	language	Taal
volk	NAMING WORD	people	Volk
man	NAMING WORD	man	Man
jung	NAMING WORD	boy	Jung
stat	NAMING WORD	town	Stadt
en	JOINING WORD	and	en

Practice 2.1 · Write it in LOGG

1. the house _ _ _ _ _
2. a book _ _ _ _ _
3. this child _ _ _ _ _
4. the town and the house _ _ _ _ _

UNIT 3

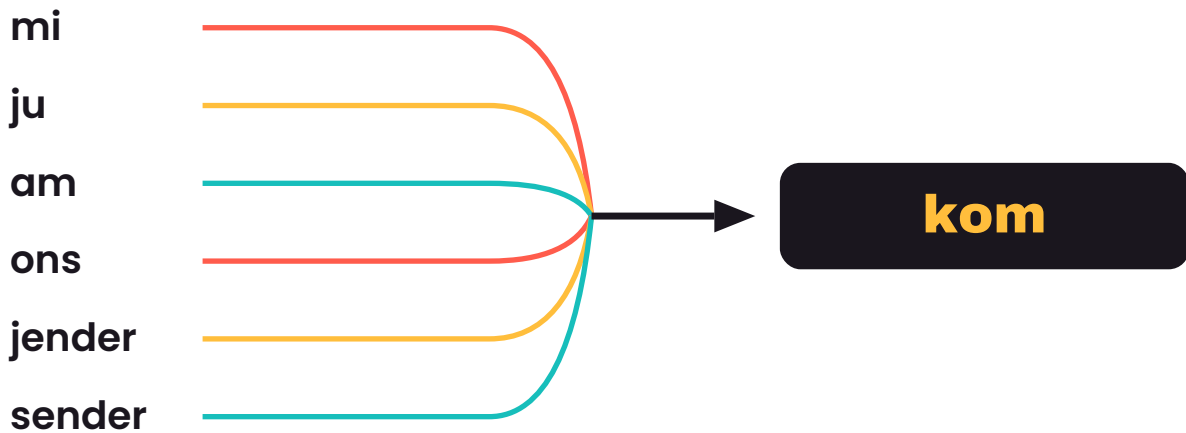

Doing Words

The verb never changes. Not ever.

THE RULE

One verb form. Every person. Every time.

English changes the verb for who is doing it — I walk, he walks. LOGG does not. **kom** is **kom** for everyone, forever.

Six people. One verb form. This is true of every verb in LOGG.

Mi kom. Ju kom. Am kom. Sender kom.

1SG come · 2SG come · 3SG come · 3PL come

I come. You come. He comes. They come.

NEW WORDS · UNIT 3 · DOING WORDS

wes	DOING WORD	to be	wees
hab	DOING WORD	to have	hab
kan	DOING WORD	can, to be able	kan
lo	DOING WORD	to go	lo
du	DOING WORD	to do	doe
mak	DOING WORD	to make	maak
nem	DOING WORD	to take	neem
hor	DOING WORD	to hear	hoor
kik	DOING WORD	to see, to look	kik
wet	DOING WORD	to know	weet
ler	DOING WORD	to learn, to teach	leer
skriv	DOING WORD	to write	skriev
help	DOING WORD	to help	help
wil	DOING WORD	to want; to love	wil
glo	DOING WORD	to believe	gloo
wis	DOING WORD	to show	wis

Practice 3.1 · True or false

1. The verb changes when the person changes. _ _ _ _ _
2. **mi kom** and **sender kom** use the same verb form. _ _ _ _ _
3. You must learn a different form of **wes** for each person. _ _ _ _ _

UNIT 4

Time Words

Six little words carry the whole tense system.

THE RULE

Put a time word in front of the verb. The verb stays the same.

This is how LOGG says when something happened, or whether it is finished, or still going on. You never change the verb — you add a word before it.

TIME WORD	WHAT IT DOES	EXAMPLE
a	it happened before	mi a kom — I came
ka	it is finished, it is done	mi ka kom — I have come
sa	it will happen	mi sa kom — I will come
lo	it is happening now	mi lo kom — I am coming
le	it happens usually	mi le kom — I usually come
no	it does not happen	mi no kom — I do not come

mi kom

mi **a** kom

mi **ka** kom

mi **sa** kom

mi **lo** kom

mi **le** kom

mi **no** kom

YOU CAN STACK THEM

a + **ka** together mean it was already finished before something else happened. **Mi a ka kom** — "I had already come."

The word **lo** does double duty: it is the verb "to go" *and* the time word for "happening now." Context tells you which. **Mi lo lo** — "I am going."

Di kint sender ka ler vor les.

DET child 3PL PRF learn FOR read

The children have learned to read.

Mi sa wis ju wapi ju ka mak di werk.

1SG FUT show 2SG where 2SG PRF make DET work

I will show you where you did the work.

NEW WORDS · UNIT 4 · TIME WORDS

a	TIME WORD	it happened before (past)	a, ha
ka	TIME WORD	finished, done	kaa, kabba
sa	TIME WORD	it will happen	sal
lo	TIME WORD	happening now	lo
le	TIME WORD	happens usually	le
no	TIME WORD	not	no
da	TIME WORD	emphasis — "it is X that..."	da
vor	JOINING WORD	for, in order to	voor

Practice 4.1 · Add the right time word

1. Mi _____ kom. (*I came.*)
2. Sender _____ les di buki. (*They have read the book.*)
3. Ju _____ mak di werk. (*You will do the work.*)
4. Am _____ wet. (*He does not know.*)
5. Ons _____ lo na di stat. (*We usually go to town.*)

Practice 4.2 · What does it mean?

1. Mi ka les di buki. _____
2. Jender no kom. _____
3. Am sa help ons. _____

UNIT 5

Shi — Showing Who Owns

Owner first, then shi, then the thing.

THE RULE

Owner + shi + thing.

English says "the man's door" or "the door of the man." LOGG names the owner, says **shi**, then names the thing. **shi** never changes — his, her, and its are all **shi**.

di man shi dor

DET man 3POS door

the man's door

di kint shi buki

DET child 3POS book

the child's book

When the owner is a person word, you do not need **shi** at all — the person word already does the job.

mi buki — my book

ju hus — your house

ons werk — our work

WHERE THIS COMES FROM

This owner-first pattern is not Dutch. It appears across Caribbean creole languages and traces back to West African grammar. It is one of the places where the African side of the language shows in the structure itself, not just the words.

NEW WORDS · UNIT 5

shi	PERSON WORD	his, her, its	sie, si
shishi	NAMING WORD	sister	shishi
hogo	NAMING WORD	eye	Hogo
kop	NAMING WORD	head	Kop
han	NAMING WORD	hand	Han
hert	NAMING WORD	heart	Hert
wato	NAMING WORD	water	Wato
sten	NAMING WORD	stone	Steen

Practice 5.1 · Write it in LOGG

1. the boy's book _ _ _ _ _
2. my hand _ _ _ _ _
3. the child's house _ _ _ _ _
4. her sister _ _ _ _ _

UNIT 6

More Than One

Add a word. Never change the noun.

THE RULE

Put sender after the naming word.

English adds an ending — cat, cats — and then breaks its own rule constantly: child/children, mouse/mice, foot/feet. LOGG adds a separate word and leaves the naming word completely alone. There are no irregular plurals.

di kint sender

DET child 3PL

the children (literally: *the child they*)

di buki sender

DET book 3PL

the books

ONE WORD, TWO JOBS

sender also means "they." That is not a coincidence — "the child they" *is* how the plural is built. LOGG reuses parts instead of inventing new ones. You have already learned this word once, in Unit 1.

Practice 6.1 • Make it plural

1. di hus → _____

2. di buki → _____

3. di man → _____

4. di dag → _____

UNIT 7

Describing and Comparing

No endings. Just mer and mest.

THE RULE

mer = more. mest = most. No exceptions.

English is inconsistent — small/smaller, but *more* beautiful, and then good/better/best out of nowhere. LOGG has one pattern and it never breaks.

LOGG	MEANS
klein	small
mer klein	smaller
mest klein	smallest
altevel klein	the very smallest, far too small

The describing word comes before the naming word, as in English.

di klein kint

DET small child

the little child

MAKING THINGS SMALL

English adds endings for little things — *booklet*, *duckling*. LOGG just uses **klein**. **di klein kabaj** — "the little horse." Nothing to memorize.

NEW WORDS · UNIT 7 · DESCRIBING WORDS

klein	DESCRIBING WORD	small, little	klein
gro	DESCRIBING WORD	big, great	groo
gut	DESCRIBING WORD	good	guut, goe
sut	DESCRIBING WORD	sweet	sut
frai	DESCRIBING WORD	nice, fine	frai
wa	DESCRIBING WORD	true	waa
mer	DESCRIBING WORD	more	meer
mest	DESCRIBING WORD	most	meest
altevel	DESCRIBING WORD	far too much, extremely	alteveel
mushi	DESCRIBING WORD	very, much	moeschi

Practice 7.1 · Compare them

- gut → better: _____ → best: _____
- gro → bigger: _____ → biggest: _____
- the nicest book: _____

UNIT 8

Na and the Place Words

One word covers in, at, to, and on.

THE RULE

na does the work of four English words.

In, at, to, on — all **na**. When you need to be more exact, add a second word after it.

Am a ko na hus.

3SG PST come NA house

He came home. / He came to the house.

na werk

NA work

at work

na bin di hus

NA in DET house

inside the house

NEW WORDS · UNIT 8 · PLACE WORDS

na	PLACE WORD	in, at, to, on	na
bin	PLACE WORD	in, inside	bin
met	PLACE WORD	with	met
van	PLACE WORD	of, from	van
sonder	PLACE WORD	without	sonder
op	PLACE WORD	on, upon	op
te	PLACE WORD	until	tee

Practice 8.1 · Fill the gap

1. Mi lo _ _ _ _ di stat. (*I go to town.*)
2. Am wes _ _ _ _ werk. (*He is at work.*)
3. di buki _ _ _ _ di kint (*the book of the child*)
4. Ons kom _ _ _ _ ju. (*We come with you.*)

UNIT 9

Joining and Asking

Linking two ideas, and getting an answer.

Joining words

LOGG	MEANS	EXAMPLE
en	and	di hus en di dor — the house and the door
of	or	een buki of een brif — a book or a letter
mar	but	Mi wil, mar mi no kan — I want to, but I cannot
as	if, when, as	as ju no glo mi — if you don't believe me
waneer	when	waneer ons kom — when we come
dat	that	Mi wet dat am kom — I know that he is coming
vor	for, in order to	vor les — in order to read
maski	even if, although	maski di wes so — even if it is so

Asking words

wat — what

wapi — where

THE RULE

Questions do not flip the word order.

English flips: "You are going" becomes "Are you going?" LOGG never flips. The order stays exactly the same, and you either raise your voice or put an asking word at the front.

Ju kom. → Ju kom?

2SG come → 2SG come?

You come. → Do you come?

Wapi ju ka mak di werk?

where 2SG PRF make DET work

Where did you do the work?

NEW WORDS · UNIT 9

of	JOINING WORD	or	of
mar	JOINING WORD	but	maar
as	JOINING WORD	if, when, as	as
waneer	JOINING WORD	when	wanneer
dat	JOINING WORD	that	dat
maski	JOINING WORD	even if, although	maski
wat	ASKING WORD	what	wat
wapi	ASKING WORD	where	wapie
so	JOINING WORD	so, thus	soo
ok	JOINING WORD	also, too	ook
nu	TIME WORD	now	nu, noe
tun	TIME WORD	then	toen

UNIT 10

Building a Sentence

Four slots, always in the same order.

THE RULE

Who → not → doing → the rest.

This order never changes. Not for questions, not for subordinate clauses, not after any word. Learn it once and every sentence in LOGG is built the same way.

WHO

subject

Pampun

Mi

NOT

negation

no

no

DOING

time word + verb

kan pari

ka les

THE REST

object, place, time

kalbas

di buki

"A pumpkin cannot give birth to a calabash." · "I have not read the book."

Build it up, one piece at a time

Mi les.

I read.

Mi les di buki.

I read the book.

Mi ka les di buki.

I have read the book.

Mi no ka les di buki.

I have not read the book.

Mi no ka les di buki na di hus.

I have not read the book at the house.

Practice 10.1 · Put the words in order

1. buki / di / mi / les / ka _ _ _ _ _
2. no / kom / sender / a _ _ _ _ _
3. werk / ju / sa / di / mak _ _ _ _ _

Practice 10.2 · Write it in LOGG

1. The children have read the book. _ _ _ _ _
2. We will go to town. _ _ _ _ _
3. She does not know. _ _ _ _ _
4. I will show you the man's house. _ _ _ _ _

Old Words, Still True

Five proverbs from 1770, written in Plain LOGG.

These were collected by J.M. Magens in 1770 and printed in the first grammar ever written of any creole language. They are given here in Plain LOGG, then in English.

Pampun no kan pari kalbas.

A pumpkin cannot give birth to a calabash. — You are what you come from.

Hogo no hab dor.

The eye has no door. — I cannot help seeing it.

Gras le gruj na dotman shi dor.

Grass grows at the dead man's door. — Nobody looks after widows and orphans.

Hunder wil shi kikentje altevel.

The hen loves her chicks far too much.

Branmir val na malasi, da sut am ha vind.

The ant fell in the molasses; it was sweetness he found. — He got what he deserved.

LOOK AT WHAT YOU CAN ALREADY DO

You have just read five sentences written 256 years ago. Every grammar rule in them is one you learned in this book: the fixed word order, the time word **le**, the owner- **shi** -thing pattern, **altevel**, and the bare naming words with no **di**.

WORD LIST

Every Word in This Book

Plain LOGG, part of speech, meaning, and the formal spelling.

Person words

PLAIN	PART OF SPEECH	MEANING	FORMAL
mi	Person word	I, me, my	mie
ju	Person word	you, your	joe
am	Person word	he, she, it, him, her	hem
ons	Person word	we, us, our	ons
jender	Person word	you all	jender
sender	Person word	they, them, their; plural marker	sender
shi	Person word	his, her, its	sie, si

Pointing words

PLAIN	PART OF SPEECH	MEANING	FORMAL
di	Pointing word	the, that, it, which	die
dese	Pointing word	this, these	deese
een	Pointing word	a, one	een

Time words

PLAIN	PART OF SPEECH	MEANING	FORMAL
a	Time word	past — it happened before	a, ha
ka	Time word	finished, completed	kaa, kabba
sa	Time word	future — it will happen	sal
lo	Time word	happening now	lo
le	Time word	happens usually	le

PLAIN	PART OF SPEECH	MEANING	FORMAL
no	Time word	not	no
da	Time word	emphasis	da
nu	Time word	now	nu, noe
tun	Time word	then	toen

Doing words

PLAIN	MEANING	FORMAL	PLAIN	MEANING	FORMAL
wes	to be	wees	skriv	to write	skriev
hab	to have	hab	verstan	to understand	verstaan
kan	can, to be able	kan	sing	to sing	sing
kom, ko	to come	kom	help	to help	help
lo	to go	lo	set	to sit	sett
du	to do	doe	gruj	to grow	gruj
mak	to make	maak	dans	to dance	dans
nem	to take	neem	trou	to marry	trou
se	to say	see	veg	to wipe	veeg
hor	to hear	hoor	kris	to cry	kries
kik, ki	to see, to look	kik	pari	to give birth to	parie
wet	to know	weet	wil	to want; to love	wil
glo	to believe	gloo	vind	to find	vind
wis	to show	wis	breng	to bring	breng
wak	to wait	wak	val	to fall	val
les	to read	lees	jump	to jump	jump
ler	to learn, to teach	leer	yt	to go out	yt

Naming words

PLAIN	MEANING	FORMAL	PLAIN	MEANING	FORMAL
hus	house	Hoes	gras	grass	Gras
dor	door	Deer, Door	hofi	garden	hofi
buki	book	Boeki	kot	cabin	kot
brif	letter	Brief	kabaj	horse	Kabaj
tal	language	Taal	kalfi	calf	kalfi
werk	work	Werk	hunder	chicken, hen	Hunder
dag	day	Dag	kikentje	chick	Kikkentje
stat	town	Stadt	branmir	ant	Branmier

maski	Joining word	even if, although	maski
so	Joining word	so, thus	soo

PLAIN	PART OF SPEECH	MEANING	FORMAL
ok	Joining word	also, too	ook
wel	Joining word	well, indeed	well
wat	Asking word	what	wat
wapi	Asking word	where	wapie

For the Teacher

What to watch for, and two things still unresolved.

Teaching order

The units are built so that each one only uses words and rules already introduced. Do not reorder them. Unit 0 must come first and must be drilled until the **j** is automatic — every later unit assumes it.

The three predictable mistakes

MISTAKE	CORRECTION
Saying ju as "joo"	The single most common error for English speakers. j is always English y . Correct it every time, from the first lesson.
Changing the verb	Learners add -s for he/she out of English habit. There is no verb agreement in LOGG at all.
Adding -s for plurals	Plural is sender after the noun. The naming word itself never changes.

Two collisions found while writing this book

Amendment 002 warned that collapsing doubled vowels in Plain LOGG could create words that look alike. Building this primer surfaced two real cases in the attested vocabulary. Both are handled here, and both should be confirmed as canon.

COLLISION 1 • EEN / EN

Formal **een** means "a, one." Formal **en** means "and." Rule 3 would turn both into **en**.

Handled here by: keeping the double vowel in **een**. This is a documented exception to Rule 3 and the only one in the book.

COLLISION 2 • WAA / WA

Formal **waa** means "true." Formal **wa** is a variant of **wat**, "what." Rule 3 would turn both into **wa**.

Handled here by: using the fuller attested form **wat** for "what," which frees **wa** for "true." No exception to the rules is needed — the sources already supply both forms.

RECOMMENDATION

Collision 2's fix is preferable because it uses an attested variant rather than an exception. Where a future collision arises, look for an attested alternative before writing an exception into the rules.

Still open

ITEM	QUESTION
9.14	Register authority — when a Formal text and its Plain version disagree, which one governs?
9.5	How to disambiguate <code>lo</code> as "happening now" from <code>lo</code> as "about to happen." This book teaches only the first sense.
9.10	Word-formation rules for coining new vocabulary. Until these exist, LOGG has no words for ledger, contract, node, tier, or settlement.
9.13	Definition of "Guild" in canon.

ANSWERS

Answer Key

PRACTICE 1.1

1. Mi 2. Sender 3. ons 4. Ju

PRACTICE 1.2

1. am 2. jender 3. mi buki

PRACTICE 2.1

1. di hus 2. een buki 3. dese kint
4. di stat en di hus

PRACTICE 3.1

1. False 2. True 3. False

PRACTICE 4.1

1. a 2. ka 3. sa 4. no 5. le

PRACTICE 4.2

1. I have read the book.
2. You all do not come.
3. He will help us.

PRACTICE 5.1

1. di jung shi buki 2. mi han
3. di kint shi hus 4. shi shishi

PRACTICE 6.1

1. di hus sender 2. di buki sender
3. di man sender 4. di dag sender

PRACTICE 7.1

1. mer gut / mest gut
2. mer gro / mest gro
3. di mest frai buki

PRACTICE 8.1

1. na 2. na 3. van 4. met

PRACTICE 10.1

1. Mi ka les di buki.
2. Sender a no kom. (or Sender no a kom.)
3. Ju sa mak di werk.

PRACTICE 10.2

1. Di kint sender ka les di buki.
2. Ons sa lo na di stat.
3. Am no wet.
4. Mi sa wis ju di man shi hus.

BXV-LANG-001 · DI BUKI VAN LOGG

Register: Plain LOGG · Companion to BXV-LANG-000 Source Record

Vocabulary and grammar drawn from van Rossem & van der Voort, *Die Creol taal*, Amsterdam University Press, 1996
