PREPARED FOR [CLIENT NAME] · [FRI 24 OCT 2026]

WE MAPPED THE PATH. HERE IS HOW WE RUN IT.

This proposal sets out what we will deliver, how, by when, and what it costs. The price comes from the work, not a guess.

YOUR GOAL, AS WE UNDERSTAND IT

[Restate the goal in plain words: what they are trying to achieve and what "done" means. One or two sentences that prove you listened.]

ENGAGEMENT	TIMELINE	PRICE
[Project / retainer]	[X weeks]	$[X,XXX]

THE WORK, SCOPED.

We take this off your plate end to end: the full breakdown, the plan in order, and the work itself. You are kept updated, not asked to coordinate.

DELIVERABLES

01 [Deliverable one: done or not done, nothing in between]
[What it includes / how we check it is complete]

02 [Deliverable two]
[What it includes / how we check it]

03 [Deliverable three. Add or remove rows as needed, straight from the breakdown]

DECISIONS THAT STAY WITH YOU

[Name the legal, financial or final-approval decisions that stay with the client. For example: final approval of all public copy; any legal filing or financial commitment.]

HOW WE WORK

01 **Map.** Every task, in order, with what can run at the same time.

02 **Do.** Our team runs the work. You get updates.

03 **Verify.** Each deliverable is checked: done or not done.

04 **Settle.** Paid on verified completion. The number you agreed to, nothing more.

THE PRICE FOLLOWS THE WORK.

We sized this engagement from its actual scope. One number, everything included. The working is available if you want to see it.

[PROJECT NAME]

$[X,XXX]

Flat project price. Covers the full breakdown and the work on page 2. Sized from [X] hours of work.

FUNDING

Work begins once the engagement is funded. [Deposit / full / by milestone: your terms]

TIMELINE

[X weeks] from the start, set by the longest chain of tasks. It moves only if a client deliverable is late.

SETTLEMENT

Paid when each deliverable is confirmed done. No doubt about what triggers payment.

If this is what you want, confirm and we begin. If anything needs changing, tell us and we will send a new version.
